We were a fittle premature in the announce ment of Mr. Eveler as our new jailer. The gentleman who accepts the position is our well known and good friend, Mr. Jacob Schirmer. Mr. Wagner has plenty of excellent timber to select from, and Mr. Schirmer is of the best.

Mr. Peter Meyers, who is collector of the revenue for the current year, has appointed Mr. Wm. G. McCarty his deputy, to assist in closing up his books in time for a final settlement at the close of the current year. Mr. W. S. Pope is also co-operating for the came purpose.

It seems to be absolutely certain that an earthquake shock occurred in this latitude last Monday night. Major Vogdes, the chief clerk of the office of the Secretary of State felt it quite perceptibly. It was about 11 o'clock. He had just retired and felt the oscillation distinctly. His experience is confirmed by the testimony of others in various localities.

On exhibition at Louie Lohman's Wednesday was a new illuminator, destined to work a revolution in the domestic economy of the country. It is called Potolene, is a vegetable compound entirely free from smoke and grease, and absolutely non-explosive. It burns with a clear, soft, white light, and without flickering. In expense, it is about the same as coal oil and 2.8ths that of gas, being in every way the equal of the latter as an illuminator. The article is manufactured at Sedulia, Lohman is to be agent for the sale of it.

#### The Newly Elected Officers.

Totals ......12,452

Buckner's plurality . 4.929

Buckner's majority .. 3.001

The following is given on good authority: The judge and president of the county court enters upon the duties of his office January 1st, 1879, and his term of office is four years. [Laws, 1877, page 226.]

District county court judges are elected for two years, and assume the duties of their positions same time as presiding judge.

Judges of probate take possession of their offices January 1st. and are elected for four years . [Laws, 1877, page 229.]

All clerks of courts of record, (except as otherwise specially provided by law, enter upon their duties on the 1st day of January, and are elected for four years. Hence circuit and county clerks go into office on the first Mon-

day in January. Recorders of deeds are elected for four years from January 1st. [General Statute, Chapter 26.]

Collectors of the revenue hold their offices for two years, and are supposed to enter upon their duties about April 1st, 1879. The reading of the revenue law as amended in 1877 may throw more light on the precise time upon which this officer assumes the duties of his office, and retires therefrom.

Prosecuting attorneys are elected for two years. When they shall enter upon their duties is a mooted question, but may be arrived at by reference to the General Statute, Chapter 18, page 142, and Laws 1872, page 13, but supposed to be January 1st.

Speriffs, assessors and coroners are elected for two years, and enter upon their duties as soon as commissioned and qualified.

## Tobacco at the Paris Exposition.

Official advices just received from Paris, declare that P. Lorillard & Co., of Jersey City, successfully carried off the bighest award given to any tobacco exhibitor, viz.: "The Only Grand Prize-a Gold Medal-for the superior quality of their 'Tin-Tag,' plug tobacco, fine-cut chewing tobacco, smoking tobacco, and snuffs." Some twenty eight American firms, as well as the principal houses of Europe, were their competitors.

## Stewart's Remains.

New York, Nov. 18 .- Various reports, of the recovery of the stolen body of Stewart and arrest of the disturbers of his grave, which were published in several papers yesterday, have not been confirmed. The police deny any knowledge whatever of the reported recovery of the body. The Herald says two or three leading police officials have placed then selves on the record. It says Mr. Hilton made a mistake in stipulating that the reward could only be earned by the conviction of the thieves as well as the recovery of the body. They claim this proviso is the stumbling block in the path of the detectives, for no negotiation is possible. To take that view is to admit that our detective system is a faulty one.

## Virginia Penitentiary Burned.

RICHMOND, Nov. 15 .- A fire at the Virginia penitentiary this morning burned a three story brick building over two hundred feet long, in which were cooper, carpenter, shoe and machine shops. Another building of smaller prcportions, occupied as a tobacco manufactory and dining hall for the prisoners, was considerably damaged. There was much excitement smoug the prisoners, but the guards aided by the police of the city and militis, prevented any attempts to escape. Loss about \$65,000. No insurance.

#### The Primary Cause of a Distant Symptom.

Nervouspess is rarely a disease in itself inherent, but is the lineal offspring of dyspepsia, in a majority of cases. The nervous disturbance is at first trifling, but ultimately its parent so undermines the general health, as to produce consequences very threatening to that great nervous centre, the brain. Hostetter's Stomach Bitters is the most powerful medicinal opponent of the ravages of indigestion, and protects the nervous system from them. The tremors, the unnatural anxiety, the headaches, the sleeplessness and loss of appetite which characterizes digestive irregularity and weakness, and which are almost invariably accompanied by an uncertain condition of the bowels and inactivity of the liver, are all eradicated by this matchless corrective, and when nervousness does not proceed from the cause designated, it affords most grateful relief.

### Further of a Mysterious Affair.

In Sunday morning's Journal, we mentioned that a gentleman of a hunting party from Clinton, Mo., had been shot in Camden county. The circumstance came to us from Deputy Marshal Crippen. Wednesday morning we gave the Bazoo version of the affair. We now give further particulars from a correspondence of the Democrat:

To-day, Capt. Frederick Myrtle was buried in Oak Grove Cemetery. His funeral was largely attended by friends and acquaintances. He leaves a wife and three sons, all married and residing in various states of the Union.

From a gentleman who was present at the time of the shooting, your reporter learned the following additional facts:

The party to which Capt. Myrtle belonged had never received any warping from any one that the Benton county farmers, at least those residing in the neighborhood of Warsaw, refused to allow strangers to indulge in hunting in their neighborhood, hence the attack on their tent was entirely unexpected. Our informant stated that he was aroused by Mr.Myrtle about midnight, Myrtle telling him to listen to the thundering. He was assured that his idea about the thunder was a mistake, whereupon he informed his friend that he had been struck by lightning. A search was instituted, when it was discovered that Myrtle has been shot. The investigation showed that the ball entered between the first and second ribs, fracturing the second rib one and one-half inch to the left of the sternum. It passed through the top of the left lung, ranged backward and downward through the same, became imbedded in the upper edge of the third rib, which had been fractured from the spinal column, and on Sunday night, after intense suffering caused his death. The excitement here over this event is very great. Parties are out in search for the perpetratoaters of this cowardly crime, and lynching, if they are found, is freely talked of. We have been told of other facts in this connection, which cannot now be given to the public, but suffice it to state that the chances are decidedly good to capture the guilty persons in a few days, when some startling developments may be expected. The verdict of the coroner's jury was to the effect that Myrtle came to his death by a shot fired from the gun of some unknown person.

## The Stolen Corpse.

New York, November 19 .- The Times says: Our reporter has ascertained that the bitch in the Stewart matter is that the robbery was the result of a conspiracy in which five men were engaged. These men are neither thieves nor crooked men of any kind. They are, on the contrary, men occupying respectable social pomore than that, they are not o men of their class. These men had nothing to do with the practical part of the outrage. They hired o her men, like Burke and Vreeland, to do the work of despoiling the grave and concealing the remains, promising them coutingen t percentages in case everything turned out well. These five men were to have been arrested Sat urdsy night, and three of them were arrested or are in such a position that

## THEY CANNOT ESCAPE.

This point could not be learned definitely yet, but the indications are that they are in custody. Two, succeeding in bribing the private detectives employed to shadow them, were permitted to escape. They cannot remain long concealed, and as soon as their whereabouts is discovered they will be immediately apprehended. The body of Mr. Stewart will be produced, and the entire story of the conspiracy and chase be given to the public. There is no trouble about catching the mere tools. It is said to be likely that the reward for the capture of the five men who planned the robbery will be increased. Capt. Byrnes brought his prisoners, Vreeland and Burke, before Justice Morgan yesterday, and had them remanded, after telling with much apparent pleasure of the wonderful wild goose chase they had led him in New Jersey. They are not yet done with, though he says that after once contessing they now deny knowledge of the crime.

It is uphill business, but with the help et a shrewd public sentiment, there is room for the possibility that Gov. Phelps will make the United States Senate for the short term. The STATE JOURNAL'S tow-line is at the service of the advocates of the prosposition.

The President's Southern policy is succincily defined by the venerable statesman of Georgia, Alexander H. Stephens. Of the rumors of a change of the President's policy he says: "They are nonsensethere is no such word as policy. If the Democrats of the South have been guilty of fraud at the ballot-box, it is the President's duty to prosecute each case he can find. There is no policy in that-it is law."

#### LEMON.

It is from the rind of the Messina lemon that Dr. Price, prepares his special Flavoring Extract of Lemon. While other Lemon Extracts in a little time have the taste and odor of turpentine, Dr. Price's for any length of time retains its intense lemony taste.

CLIFFORDS'S FEBRIFUGE-PALATA-BLE, POWERFUL, ANTIPERIODIC AND TONIC .- Nature's remedy for Fever and Ague. Never known to fall in a single case. This popular remedy differs from all other Ague Cures, in being free from all poisonous effects on the system; it enters into the circulation and destroys all malarious poison, and thus eradicates the disease without producing any of those distressing after-sensations, such as fullness and pain in the head, ringing in the ears and partial deafness.
